The Lobelia Road.

The County Court will meet December 27th for the purpose of considering the building of a new road across the mountain to Lobelia...

The people across the Mountain do need and deserve a much better road than they now have...

The present road is on a very steep grade on the mountain side, and the top of the mountain does not lend itself to good dirt road building...

The point we would have the court consider is the advisability of making a number of changes on the mountain side to materially lessen the grade...

As to the changes in the grade on the mountain, we have the word of a number of our best men that such changes are practicable...

We believe that if the people across the mountain will agree upon permanent improvement of the old road instead of a new road...

Another thing that should forbid undue hurry in this matter is the unsettled state of the county's finances...
